

AmeriCrete[®] Inc
MANUFACTURER OF DECORATIVE OVERLAYS & SEALERS
High Shine Plus
A-1450

Product Description

A-1450 High Shine Plus is a tough, durable, high gloss, amber resistant product designed to be used as a clear finish over AmeriCrete products. High Shine Plus is a 45% solids, single component, moisture cure urethane sealer. It gives AmeriCrete products a clear protective coating to resist chalking, yellowing, color change, and give immediate mar resistance for flooring applications. High Shine Plus is a higher solids product than High Shine. (approximately 20% more solids.)

Coverage Rate

High Shine Plus will receive approximately 350 to 400 square feet per gallon, depending upon the surface applied to and application procedure followed.

Primary Uses

Interior and exterior surfaces, high gloss sealer that is used on stamped concrete, walkways, sidewalks, stairs, doors and other decorative surfaces. High Shine Plus is excellent for wood floors, and cabinets. High Shine Plus is non-ambering, non-yellowing, tough, durable, and versatile.

Typical Applications

Interior and exterior use on concrete and masonry surfaces wherever a tough, non-chalking clear coat is desired. May also be used on stairs, doors, sidewalks, exposed aggregate, stamped concrete and other decorative surfaces. Excellent for interior use on wood floors and cabinets where a non-ambering finish is desired.

Application

Can be sprayed, rolled or applied with a lambs wool applicator over smooth surfaces.

Limitations

Not recommended for application below 28 degrees F. Do not apply on wet or damp surfaces. Do not allow to puddle, or apply thick coats. AmeriCrete Beads A-1402 can be added to the product to produce an anti-skid surface. When applying this product the applicator (and everyone in the immediate area) must wear protective clothing such as a filtered mask, gloves, boots, long sleeve shirt, long pants, and eye protection.
