

# BMS-270LPII

## SPECIFICATIONS:

**Working Width:** 24 in. (610mm)  
**Tool Width:** Blade dependent  
**Production Capacity:** Up to 7,000 sq. ft./hr, material dependent  
**Max. Ground Speed:** 250 ft./min.  
**Engine:** Liquid propane  
**Amperage:** Liquid propane unit  
**Dimensions:** L 76 in. (1930mm) x W 30in. (762mm) x H 64 in. (1626mm)  
**Weight:** 2,590 lbs (1175kg)

The BMS-270LPII is particularly useful for abatement jobs prior to demolition, outdoor applications, and removing

waterproofing membranes such as those found in parking structures.

The Blastrac<sup>®</sup> BMS-270LPII is a high-productivity, ride-on floor scraping machine designed for large area removal. The BMS-270 significantly reduces the amount of time and effort required to remove a wide variety of floor coverings, waterproofing membranes, and thick coatings. Even stubborn removal jobs are no match for this heavy-duty floor scraper. It is a great choice for all your floor scraping needs.

## FEATURES & BENEFITS:

- Liquid propane powered
- Easy to transport; size and weight allow most freight elevator access
- Fits through standard doorways
- Comfortable seat and easy-to-use joystick controls—operator friendly
- Easy maneuverability, small turning radius
- Central direct-drive pump system, external battery terminals and easy access hydraulic filter assembly
- Accommodates up to 32 separate internal 42 lb. weights (optional) for challenging removal applications
