

Hudson Constructo® Sprayers

A Professional Sprayer for Many Commercial Jobs!

The Hudson Constructo Poly Sprayer features a poly funnel-style tank and pump cylinder, steel “D” pump handle, brass Roto Valve™ and extension wand, power sprayer-type chemical resistant hose, and is equipped with an adjustable fan pattern brass nozzle. All Viton seals and gaskets make this sprayer perfect for a wide variety of professional applications. Use these sprayers for non-acid cleaners, degreasers, solvents, form oil release etc.

- **1, 2, & 3 gallon sizes available** - 90181, 90182, & 90183, respectively
- **Heavy-Duty Poly Tank with Funnel Top** - Low profile design with 6-footed base for superior stability
- **High Performance Poly Pump with Malleable Steel “D” handle pump** - Pressurizes quickly and made to last
- **42” Kem-Oil® Hose** - Chemically resistant, non-kinking, power sprayer-type hose
- **Metal Roto-valve™** - Strong steel control valve rotates around hose for easy directional orientation
- **Brass Spray Wand** - 18” (90183 & 90182), 12” (90181)
- **Adjustable brass fan pattern nozzle** - Converts to “T-Jet” style nozzle with Hudson #141-460 nozzle assembly
- **Pressure release valve** - Low profile design, locks on for safe pressure release
- **Viton® seals & gaskets** - Very chemically resistant soft parts
